

SHOP SAFETY DAYS 211

### Information displays

- This family of message-sign consists of scrolling (moving) marquees that are available in 2", 4", 6" and 8" high characters. All models use long-life, red or amber LEDs.
- **Scrolling** marquees will "move" messages. For instance: "flash" / "open" / "blink" / "scroll", etc.
- They display alpha/numeric messages transmitted by PC or PLC in RS232 or RS422/485 interface.
- Stand-alone or easily networked.
- **Ethernet capability** using an internal Webserver (each sign will have a unique IP address).
- A Windows based software package is included to allow the user to create, edit and send messages.
